ANOTHER VISIT TO EUROPE

BY COL. HOUSE INTIMATED Berlin Said to Hope It Will Be as

Berlin, Tuesday, May 23, 10 p. m., via London, May 25, 6.30 p. m.—Another visit by Col. E. M. House to Enrope would come as no surprise to initiated quarters here. The American rumors to this effect are regarded as having a certain basis in fact, although the opinion prevails that the trip would naturally be postponed until after the national conventions.

It is hoped here that should Colonel House pay such a visit he will come this time as a hardinger of peace, or at any rate, to prepare, if possible, the foundations for a peace proposal, difficult as this task is recognized to be.

During his last previous visit to Europe Colonel House made no effort and conducted no investigations in the direction of peace—in Berlin, at any event—having perhaps found absolutely adverse conditions in capitals of nations hostile to Germany. Presumably, also, he had previous information that American mediation was under no circumstances desired, and that it would not be accepted as long as the United States continued to supply Germany's foes with cannon, shot, shell cartridges, power and a thousand and many's foes with cannon, shot, shell cartridges, power and a thousand and one other requisites for waging war against the central powers, while no intimation had been given at the time of this visit the trascibility in high marriers here on the marriers has

of this visit the irascibility in high quarters here on the munitions question was in any way abated.

The situation has now dianged. Apparently there is no harm, from either a political or a strategic standpoint, in saying that Germany would welcome peace. As Arthur Von Gwinner, the managing director of the Deutsche bank in Berlin, stated to The Associated Press correspondent recently. "Germany is in the position of a poker player who has gathered in all the money on the table and naturally is willing to break off an all-night session and retire with his winnings. Elighteen persons have been killed nd a score injured in an Austrian air GREECE IS INCREASING tation throughout Greece caused by the news that Teutonic submarines had torpedoed three Greek vessels continsion and retire with his winnings while the others persist in continuing in the hope of recouping some of their losses. The Ship Owners' league has decided to bring a legal action in an effort to obtain the seizure of the Austro-Gernue the simile, are running strongly in the Germans' favor, it is pointed out as shown in the renewed postponemen of the long-heralded Anglo-French of tensive in the west, the steady though slow progress of the crown prince at Verdun, the victories of the Turks, and

finally the crushing results of the Austrian offensive in the Trentino." trian offensive in the Trentino."

Whether these events are enough to induce the allies to retire from what is looked upon here as a losing game, and whether the changed tone of the ulterances of Premier Asquith and Sir Edward Grey and what is considered a disavowal of their intention to crust Germany as a nation and a commercial rival, or dismember the empire are indicative of receptivity toward reasonable peace proposals is an uncertain factor. The Japanese idea is that all leading powers interested in China as well as Chinise would have representation in the commission, but Japan would be the controlling influence supported by the Entente Powers. This plan would involve an absolute recognition of Japan's special position in the Far East, for which the Japanese have been striving with renewed vigor since the opening of the European war.
